

5th World Conference on Research Integrity

EARTHnet: An initiative to promote a Research Integrity framework in Greece

P. Kavouras, E. Koumoulos, N. Foeger, D. Lanzerath,
M. Kritikos, C.A. Charitidis

Concurrent session: National experience 2

Outline

- Current situation in Greece
- Self-regulation principle: What is missing?
- EARTHnet in Greece
- EARTHnet's main objectives
- Upcoming actions
- Future steps

Current situation in Greece

Organisational

National level

- Greece does not have a RE&RI National Committee or a National Code of Conduct for Research
- Only National Organization for Medicines has a legal mandate

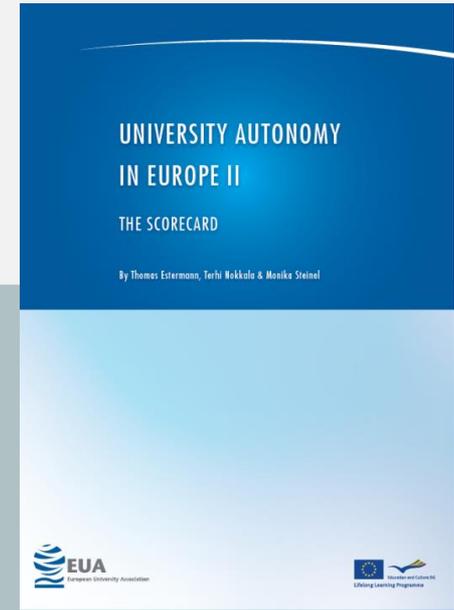

Institutes

- RE&RI committees and their Codes of Conduct mainly focus in medical and biomedical research
- There is not a specific procedure for ethical assessment of research projects

Wider context

Awareness

- RE&RI issues have not attracted the attention of the Academia in the extent it has happened in other European countries
- Public awareness needs to be boosted

Systemic

- There are inherent difficulties to apply the self regulating principle

EARTHnet in Greece

earthnet.ntua.gr

EARTHnet stands for Ethical Aspects in Research and Technology for Human network

EARTHnet has a voluntarily based membership

The network

earthnet.ntua.gr

It initially started in 2008 as a network mainly concerned with RI issues on nanotechnology

Now it is concerned with wider issues of RI

It expands the coverage to almost all Greek universities and most research centers

The network

National Bioethics
Commission

National Technical
University of Athens

National School
of Public Health

University of
Crete

Biomedical Research
Foundation Academy of
Athens

Democritus

Medicine Environmental
and Occupational Health

Aristotle
University of
Thessaloniki

Host institute

National Technical University of Athens

Εθνικό Μετσόβιο Πολυτεχνείο

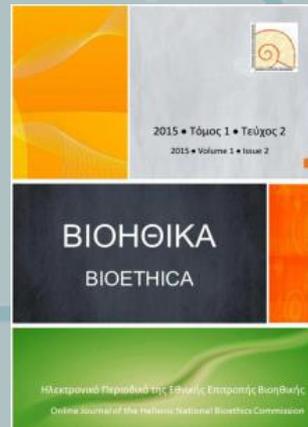

ntua.gr

Main objectives

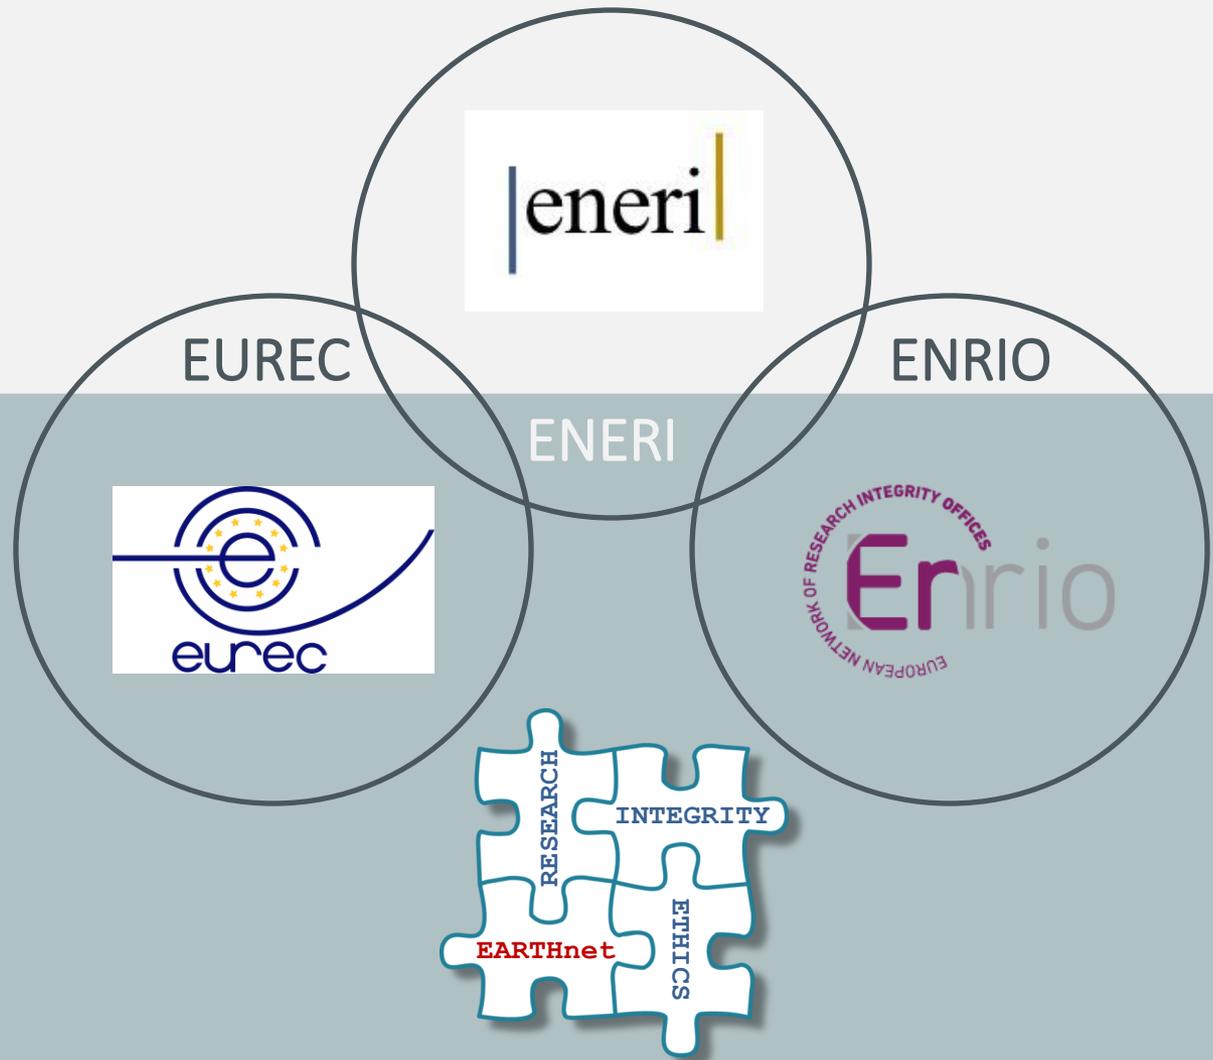

- Raise awareness among the Greek academic community on RE&RI issues
- Institutionalization of a national code of conduct for research
- Set up of a national RE&RI committee that will not act just as producer of soft and hard laws but also as a center of a research culture
- Disseminate the latest developments at the European area and beyond

Dissemination in Greece

- Academia – Participation in conferences, Coordination of the Advisory Ethics Committee of NTUA, Publications
- Students – Organization of lectures
- General public – Publications in wide circulation newspapers

“With a little help from my friends”

Upcoming actions

&

Future steps

- Local organizing committee for the **1st ENERI Stakeholder meeting** in Athens (28-29 September)
- Coordination of the Advisory Ethics Committee of NTUA
- Organization of EARTHnet members' meeting (autumn 2017)
- Interdepartmental curriculum on RE&RI for pre- and post-graduate students in NTUA
- Set up of a RE&RI network for the Mediterranean countries

THANK YOU FOR YOUR ATTENTION
